## E. SPECTRA®-LITE

An extremely light, no-stretch yacht braid featuring Spectra®, a high-strength, no-stretch fiber. Constructed with a Spectra® composite core and a multifilament polypropylene cover, this line has almost zero water retention and it floats. Use for spinnaker, main and jib sheets. Sold per foot.

39-1105 5/16" (8mm) \$1.30

39-1106 3/8" (10mm) \$1.79

## F. STANDARD POLY YACHT BRAID

A multipurpose Dacron line. Use for main and jib halyards or trampoline lacing. Shiny texture, double-braided, spliceable. No tracer. Per foot.

39-3141 1/4" (6mm) \$ .58

## MARLOW FORMULINE

Smooth 12-plait construction and the slippery characteristics of Dyneema material reduce friction, especially in high-powered downhaul systems. Marlow's unique construction keeps this line round under very high loads, so it holds extremely well in clam-style cleats. Per foot.

39-1309 9/64" (3.8mm) \$1.10
