

HULL CRADLES & TIE-DOWNS

CHOOSING A HULL CRADLE

Choose a cradle that provides the most contact area possible. The cradle should not pinch the hulls from the sides. If your boat is not listed, select a cradle that best matches the profile of your boat's hulls.

A

B

A-C. HULL CRADLES BY HOBIE CAT®

Cradles distribute the boat load over a large area of the hull to assure no excess stress while trailering. #07-4801 and #07-4803 are custom molded to the H-20 hull shape, but fit all Hobies except H-21SC/SE and Fox; they also fit P-18.2, P-19, Nacra 5.2 and 5.8. #07-4801 rear cradles are pivot mounted to aid moving boats on and off the trailer. #07-1624 has a unique bottom that will fit either a round tube or a flat surface. All cradles from Hobie® include mounting hardware.

A. 07-4801 H-20 Stern with Hinge Bracket – pair \$176.55

B. 07-4803 Hobie® Universal Bow – pair \$146.25

07-4800 Set of 4 (2 Bow, 2 Stern) \$303.65

C. 07-1624 Universal H21SE, Fox – pair \$109.00

C

D

D-F. HULL CRADLES

Designed to distribute the load of a boat over a large surface area and carpeted to cushion and protect the hulls. Cradles bolt directly to any trailer that utilizes 2" cross supports, and will adapt easily to larger sizes by cutting off the leading edge of cradle. (Bolts are not included.) Also adaptable for use with homemade beach wheels. Cradles must be used to maintain Nacra® boat warranties. Universal size fits bows and sterns of most boats except Inters and Fox. Cradles have been confirmed to fit boats mentioned; please let us know of any boats to be added to the list. Each.

D. 13-7010 Universal except Inters & Fox (compatible with H-Tiger rear) \$45.00

E. 13-7030 H-17/18 Bow \$45.00

F. 13-7020 H-20 Bow, N 5.7 Stern \$45.00

19-2222 Bolt 1/4-20 x 2.5" \$2.20

19-2516 Nylock Nut 1/4-20 \$.45

F

G. INTER CRADLES

For Inter 17/18/20. Molded fiberglass construction with carpeted upper. Bolts are not included; use 5/16" bolts of a length to fit your trailer.

56-C320 Factory Inter/F18 Cradle – each \$60.00

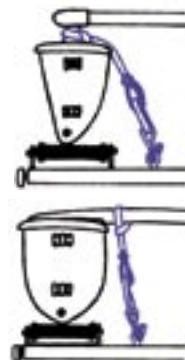

G

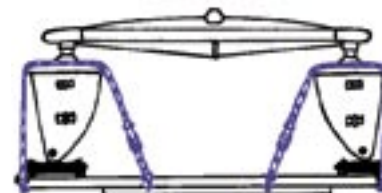

4-POINT TIE KIT

Easy to adjust and secure. Includes four 1" wide nylon straps that loop around pylons or corners of crossbars and then secure to trailer with eye bolts (not included). "J" hook connection with plastic safety clips prevents inadvertent unhooking. Positive action cam will not open, even while under loose tension. For all Hobie® and Nacra cats. Set of 4. 01-1510 \$55.00

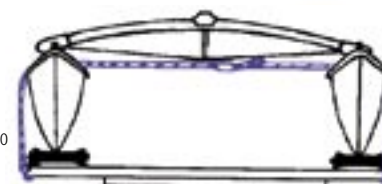

HULL TIE DOWNS

Popular with Prindles, these 2"-wide nylon straps quickly hook to your trailer. Kwik-Lok® buckles keep straps taut until released. Rated capacity is 2400 lbs. per pair. Maximum working length is 72". Pair. 01-1500 \$22.00

ACROSS-THE-HULLS TIE DOWN

2" webbing with covered steel roller buckle and double 1/4" steel "J" hook with safety spring snaps to prevent unhooking. 2" x 13'. 2000 lbs. test. Order two to secure both front and rear of boat. Each. 01-1501 \$19.00

TOGGLE STRAP

3/16" shock cord. Holds 12"-24" circumferences. Each. 13-1020 \$2.50

SHOCK CORD TIE-DOWN

40" of 3/8" shock cord with dichromated hooks. Order 4 per boat. Not for high speed travel. Each. 13-1001 \$6.00
